OBJECTIVE

Detail-oriented AIML Diploma student seeking a summer internship to apply foundational knowledge in Data Science, Python programming, and Machine Learning. Eager to contribute to real-world AI solutions while further developing technical skills in a professional environment.

EDUCATION

Diploma in Artificial Intelligence & Machine Learning Engineering | K.E. Society's Rajarambapu Institute of Technology (polytechnic), Lohegaon

Expected Graduation: June 2027

- **Key Coursework:** Data Structures using Python, Database Management Systems (MySQL), Statistics for AI, Fundamentals of Machine Learning, and Web Technologies.

TECHNICAL SKILLS

- **Programming Languages:** Python (Core & Advanced), JavaScript, Java
- **AI/ML Libraries:** NumPy, Pandas, Matplotlib (Foundational Scikit-Learn knowledge)
- **Databases:** MySQL, SQLite,
- **Web Development:** HTML5, CSS3, Bootstrap
- **Tools:** VS Code, Antigravity from Google, Git & GitHub, Postman

ACADEMIC PROJECTS

Library Management System

- Developed a Library Management System using Python and DBMS concepts to manage book records and user details.
- Implemented functionalities such as book issue/return, search, and database record management using SQL queries.
- Designed and maintained database tables for books, members, and transaction tracking.

Ai Resume Analyzer

- built an AI-powered resume analysis platform that evaluates resumes against job descriptions using NLP techniques.
- Implemented resume parsing, keyword extraction, ATS score calculation, and skill-gap analysis.
- Integrated LLM APIs to generate resume improvement suggestions and personalized feedback.

Ai Movie Recommendations System

- Developed an AI-powered movie recommendation system that suggests personalized movies based on user preferences and similarity analysis.
- Implemented content-based filtering using cosine similarity and NLP techniques on movie metadata.
- Built interactive UI for movie search, recommendations, and ratings visualization.

CERTIFICATIONS & TRAINING

- **[Generative Ai Foundation]:** Completed foundational training in Generative AI concepts, large language models (LLMs), prompt engineering, and AI applications through Amazon Web Services.
- **[Cloud Foundation]:** Completed foundational training in cloud computing concepts, AWS core services, security, networking, storage, and deployment fundamentals through Amazon Web Services.
- **[Oracle Cloud Infrastructure]:** Completed foundational training in cloud infrastructure, compute, networking, storage, security, and deployment services using Oracle Cloud Infrastructure (OCI).

KEY COMPETENCIES

- **Problem-Solving:** Strong analytical mindset with a focus on debugging and logical reasoning.
- **Agile Mindset:** Understanding of iterative development and team collaboration.
- **Documentation:** Skilled in technical reporting and project structuring.
- **Communication:** Able to explain technical concepts clearly and collaborate efficiently
